

Description:

Designed to prevent overvoltages in cable TV networks and to protect the television receivers without compromising signal quality. Provides galvanic decoupling of both central core and shield of the coaxial cable and recoverable voltage protection. Suitable for both outdoor and indoor mounting.

Features:

- Built-in recoverable voltage protection
- High screening effectiveness
- Join a coaxial line by F-connectors
- Hermetic housing

1.0GHz

Technical Specifications	
Frequency Bandwidth	5 ÷ 1000 MHz
Insertion Loss	< 0.75
RF Connectors	F - Type
Voltage protection activation threshold	230VDC
Temperature Range	-30 ÷ 50°C
Protection Level	IP65
Dimensions	50 x Ø21mm
Weight	0.030kg

Example installation:
